Confirmation of Collaboration and Next Steps for Terrain Verification

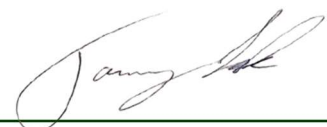

Josef Wiegand GmbH & Co. KG hereby confirms the collaboration with Parklop, which will commence upon signing the preliminary contract and remain in effect for its duration. The project is considered serious.

According to the survey data provided by Parklop LLC, it is necessary to verify whether the new layout fits the terrain. To do this, a surveyor from Parklop LLC will stake out the new points on-site. Afterward, the team from Josef Wiegand GmbH & Co. KG will visit the site to check and confirm the feasibility.

Please find attached a preliminary contract for this effort. The costs of this preliminary contract will be offset against the total project costs upon completion.

Best regards,
Tommy Lack
